Do the old exams guide you?

**Yes! There will be a rather high
resemblance!**

What about the scientific papers?

There will be questions, relating to the papers.

What about Chen et.al.?

Check out the improvement work

What about Stålberg and Fundin?

Results
Discussion
Conclusions

What about Wissner and Fawcett?

Characteristics of world class manufacturers
Traditional performance criteria
The development of an effective performance
measurement system

What about MacDuffie?

Start at:

Problem definition/Analysis – Sources of data, p.497

End at:

Conclusions, p. 501

And what about the PP-slides?

**Off course there will be questions
from them!**

All in all...

9 questions.

35 points.

18 points required to pass.

Pretty please!

**Fill in the course evaluation so I can
continue develop as a teacher and
as a course designer!**

Thank You!

Good luck!
